

Neural Analytics is committed to providing the best training and ongoing education of any TCD provider in the industry.

With dedicated technologist trainers, online webinars, congress education events and an online series of courses designed by sonographers called "TCD Academy" Neural Analytics sets a new standard for what you can expect from your TCD provider.

Neural Analytics is the only TCD provider to employ Registered Vascular Technologists (RVT) & Sonographers on its staff to provide hands on and remote training that comes standard with the purchase of the Lucid TCD System. Start up training can be customized to your needs and can be scheduled for up to two full days in length.

A series of online web courses can continue your education beyond the initial training through a web series called "TCD Academy." Covering everything from basic anatomy to advanced insonation techniques, our online, on-demand courses will help you improve your technique, expedite your procedures and help you provide the best possible care for your patients.

- Online Webinars**
- Basic Device Set-up**
